## TVH Australia to distribute new forklift battery range

TVH Australia has been appointed the exclusive distributor for the Maxx Battery brand of value-for-money traction forklift batteries.

Maxx Battery is an established brand in the automotive industry. The forklift battery range is locally assembled and backed by a 12-month warranty and a full service offer.

This is the first time TVH Australia has included forklift batteries in its range of spare parts, and is the result of a new partnership with industry leader, CenturyYuasa, to provide independent resellers and repairers a value-for-money battery offer.

For more information on the Maxx Battery range call 1300 300 842 or visit [www.tvh.com.au](http://www.tvh.com.au)
